SHADOW
Industrial Infrared

Shadow Infinity 6kW Industrial Infrared Heater

Shadow Infinity Industrial Infrared Heaters are suitable for all commercial spaces, working exceptionally well in both indoor and outdoor spaces. Whether it's heating a large production hall or open-air warehouse, infrared heating solutions provide effective warmth in different environments, no matter the surrounding conditions.

Shadow Infinity Industrial Infrared Heaters offer your environment with different mounting options, either mount to the wall or ceiling. This versatility allows for easy installation in different spaces and adaptability to specific layout requirements. It provides flexibility in positioning the heaters to achieve the desired heating coverage and optimise space utilisation.
