SHADOW
SOLACE 24

ON TILT SAFTEY STAND

A practical choice for churches needing heating on a temporary basis, the Tilt Safety Stand allows the 2.4kW Shadow Solace to be set up when needed, without permanent installation. Its sturdy construction and wide, weighted base provide secure support, while the freestanding design gives you flexibility over where to place it. Ideal for occasional services, events or extra warmth during colder months, the Solace delivers gentle long-wave heat. Available in black and gold.
